PROGRAM:

```c
#include<stdio.h>
#include<conio.h>
void main(){
float celsius,fahrenheit;
clrscr();
printf("\n Enter the Temparature in Celsius : ");
scanf("%f",&celsius);
fahrenheit=(1.8*celsius)+32;
printf("\n Temperature in Fahrenheit : %f",fahrenheit);
getch();
}
```

NARESH KUMAR R

<u>OUTPUT:</u>

Enter the Temperature in Celsius : 60
Temperature in Fahrenheit : 140.000000
